

# PIN THE FLUSH ON THE TOILET!

1. Affix the toilet poster to a wall.
2. Each individual is blindfolded and handed a paper "flush" with blu tack on the back or some other means of sticking it to the toilet poster.
3. The blindfolded individual is then spun around until he or she is disoriented.
4. The participant then tries to pin the flush on the toilet.
5. The winner is the player who pins their flush closest to the target.

PLEASE NOTE: This game is generally not competitive: "winning" is only of marginal importance. Most entertainment is gained from seeing participants stumble around and trying to put their flush in the correct place!
