You can now twin your toilet, tap, bin or fridge:

TOILET TWINNING

‘It is great to know that, through my toilet twin, a community can be educated about hygiene and sanitation.’

Dave

BIN TWINNING

‘Twinning your bin is a good way to help stop and reverse the damage being done to planet earth.’

Liu

FRIDGE TWINNING

‘Covid-19 affects us all but I never want to forget that others are a lot more vulnerable than me. My dad is Yemeni, so I’ve twinned my fridge with Yemen.’

Mel

I would like to twin:

- Toilets at £60 each
- School toilet blocks at £240 each
- Taps at £60 each
- Bins at £45 each (Sticker size A5)

Please accept my TOTAL donation of

TOTALS

Please complete the form overleaf – please remember the GIFT AID declaration.

Please enclose a cheque (payable to Toilet Twinning) or I enclose a CAF voucher.

If you are twinning multiple items, please send one cheque made out to Toilet Twinning only. Funds will be allocated as per your order.

TRANSFORM LIVES: ONE TWIN AT A TIME
1 in 4 people do not have a safe and hygienic toilet

Bawili couldn’t afford to build a loo at her home, and, one evening, her daughter was attacked as she went to the toilet in the bush. We helped establish a community health group in Bawili’s village, and the group worked together to build the family a toilet. It’s Bawili’s pride and joy.

“Our toilet brings us safety, privacy and dignity.”

Gloria used to walk two hours each day to collect water. She kept water – but nothing changed. So we helped install a borehole with a solar-powered pump. As president of her village committee, Gloria ensures the pump is kept in good order.

“This will be good for our children and future generations.”

FOR £60, twin your fridge to help provide emergency food parcels and livelihood support.

2 billion people don’t have their rubbish collected

In Rubina’s neighbourhood, rubbish is often burnt to get rid of it. Rubina’s elder son, Javed, is disabled and has serious respiratory problems. They’re made worse by the burning rubbish.

“He feels pain because of the smoke and I have to take him to hospital for oxygen.”

FOR £45, twin with a certificate for your kitchen or bathroom tap.

144 million people get their water from rivers or lakes

Gloria used to walk two hours each day to collect water. She kept water – but nothing changed. So we helped install a borehole with a solar-powered pump. As president of her village committee, Gloria ensures the pump is kept in good order.

“This will be good for our children and future generations.”

For £60, twin your tap to help end generational poverty.
